

CHRYSO® EasyDrain S20

Stabilizing agent for pervious concrete

CHRYSO® EasyDrain S20 controls the hydration reactions. It improves the workability retention of the concrete.

This stabilizing agent has been designed for pervious concrete. It is suited for low workability concrete.

CHRYSO® EasyDrain S20 is a workability regulator, to ensure transportation and placing of the concrete.

The stabilizing agent **CHRYSO® EasyDrain S20** must be used in combination with the enhancer **CHRYSO® EasyDrain R10**.

Method of use

Dosage: Standard dosage around 10°C is 0,7 L/m³ of concrete , and 1,4 L/m³ of concrete around 20 °C.

The optimum dosage of this product can only be established after trial tests, taking into account the local conditions.

Safety

Before use, refer to the Material Safety Data Sheet.

Indicative characteristics

- Nature: liquid
- Colour: Colourless
- Shelf life: 24 months

Specifications

- Specific gravity: 1,125 ± 0,020
- pH: 3,80 ± 1,00
- Solid content (halogen): 18,00% ± 1,50%

Domains of application

- Pervious concrete

Precautions

Protect from frost.

Avoid prolonged exposure to high temperatures.

Should the product freeze, it will recover its properties. After thawing, an efficient agitation is necessary until the product is entirely homogeneous again.

The information contained in this technical data sheet is given to the best of our knowledge and the result from extensive testing - which were conducted in order to remain as objective as possible. However, it cannot, in any case, be considered as a warranty involving our liability in case of misuse or any different use of our products, other than those from the «Application» paragraph of this technical data sheet. Some application tests should be carried out before using the product to ensure that the methods of use and conditions of application of the product are satisfactory.
